## Job Description: New Product Introduction Engineer

### Cala Health, Inc.

#### About Cala Health

Cala Health is a bioelectronic medicine company transforming the standard of care for chronic disease. The company's wearable neuromodulation therapies merge innovations in neuroscience and technology to deliver individualized peripheral nerve stimulation, and its vertically integrated commercial model is reshaping the delivery of prescription therapies. Cala Health's lead product, Cala Trio™, is the only non-invasive prescription therapy for essential tremor. New therapies are under development in neurology, cardiology, and psychiatry. Cala Health is headquartered in the San Francisco Bay Area and backed by leading investors in both healthcare and technology. For more information, visit [CalaHealth.com](http://CalaHealth.com).

#### The Opportunity

Cala Health is seeking an NPI Engineer to join our growing team. The role will report to the Director of Operations.

Specific Responsibilities include:

- Drive process development and coordinate with R&D and Quality to develop and improve manufacturing processes, conduct process validations, and develop statistical control methods.
- Lead manufacturing development and integration of pre-commercial devices and designs, with a focus on manufacturability.
- Drive material tracking, availability, and resource planning for clinical, development, and qualification builds.
- Develop and execute process validations and IOP/Qs for new fixtures, equipment, & processes.
- Drive continuous improvement by authoring and developing MPIs, Test Methods, and TMVs.

#### Desired Skills and Experience

We are looking for an NPI Engineer to support Manufacturing in a dynamic, fast-paced startup environment, exemplified by:

- BS Degree in Engineering from an accredited institution.
- 3-5 years related experience.
- Excellent oral and written communication.
- Proficiency with Good Manufacturing and Documentation Practices (GMP/GDP).
- Experience with budgeting and tracking of manufacturing processes and projects.
- Flexibility that allows you to work effectively in a start-up environment.
- Seen a medical device or diagnostic product through full development and FDA clearance process.

Cala Health believes our success is based on diversity of people, teams and thinking. We offer all employees the tools, training and mentoring they need to succeed. Our selection process is driven by the key requirements for the role rather than bias or discrimination on the basis of a candidate's sex, gender identity, age, marital status, veteran status, non-job-related disability/handicap or medical condition, family status, sexual orientation, religion, color, ethnicity, race or any other legally protected classification.

If you or someone you know might be interested in this position, please submit a resume & an introductory email to [careers@CalaHealth.com](mailto:careers@CalaHealth.com).
