Job Description: Senior Mechanical Engineer Cala Health, Inc.

About Cala Health

Cala Health is a bioelectronic medicine company transforming the standard of care for chronic disease. The company's wearable neuromodulation therapies merge innovations in neuroscience and technology to deliver individualized peripheral nerve stimulation, and its vertically integrated commercial model is reshaping the delivery of prescription therapies. Cala Health's lead product, Cala Trio™, is the only non-invasive prescription therapy for essential tremor. New therapies are under development in neurology, cardiology, and psychiatry. Cala Health is headquartered in the San Francisco Bay Area and backed by leading investors in both healthcare and technology. For more information, visit CalaHealth.com.

The Opportunity

Cala Health is seeking a Senior Mechanical Engineer to join our growing team. The role will include working with an experienced team and being responsible for design, development and testing for our revolutionary health products.

Specific Responsibilities also include:

- Owning the CAD database for specific project
- Designing prototypes to aid in usability and engineering testing
- Translating prototypes into final production parts
- Leading verification activities for product development including defining the testing plan, STM development, fixture development, and final testing
- Supporting design control documentation
- Supporting manufacturing transfer and sustaining engineering

Desired Skills and Experience

We are looking for a Senior Mechanical Engineer to support product development in a dynamic, fast-paced startup environment, exemplified by:

- Strong background in Medical Device design, Design Controls and Clinical.
- BS in in Mechanical Engineering or equivalent.
- 4-8 years' experience.
- Experience with design release document control practices.
- Strong CAD skills
- Excellent team, person-to-person communication skills and written skills.

Cala Health believes our success is based on diversity of people, teams and thinking. We offer all employees the tools, training and mentoring they need to succeed. Our selection process is driven by the key requirements for the role rather than bias or discrimination on the basis of a candidate's sex, gender identity, age, marital status,
